

Town of Highland Beach

3614 South Ocean Boulevard • Highland Beach, Florida 33487

October 18, 2022

Dear Highland Beach Resident,

We are writing to all residents who have a vested interest in oceanfront property, a cherished resource of tremendous value for protecting our piece of Florida shoreline. Given the real threat of beach erosion, many residents are looking for information regarding maintenance of their dunes and how to find professional guidance.

Benefits of dune protection along Highland Beach include:

- Safeguarding property value.
- Shoreline protection from storm surges.
- Decreased beach erosion over time due to rising sea levels and hurricanes.
- Reduction of light pollution for nesting and hatchling sea turtles.
- Shelter for coastal wildlife.

To learn more including resources and guidance on dune restoration, please visit the Natural Resources Preservation Advisory Board website at www.highlandbeach.us/nrpab

Sincerely,

Your Town of Highland Beach Natural Resources Preservation Advisory Board Members:

Nicole Stansfield - Chairperson
Margarita Chappellear - Vice-Chairperson
Diane Matthewman
Virginia Eastwood-Egan
Leonard Brenner
Joshua Davison
